Sharing the Gospel with Hindus

Sharing Jesus with Hindus

- Understanding that **Hindus have a wide range of beliefs** is crucial for effective witnessing. You cannot assume that this Hindu believes the same thing as the last Hindu chatter you engaged.
- Start conversations by asking about their **background and beliefs**.
- Use **open-ended questions** to transition into spiritual discussions.

Effective Communication Strategies

- Use terminology **carefully**; words like God, sin, and salvation have different meanings.
- Ask questions to **clarify** their understanding of these terms.
- **Listen actively** to their responses to build rapport and understanding.
- **Ask questions and listen** more than you talk and make statements. This will open the door to a meaningful Gospel conversation.
- Transition to discussing Jesus by emphasizing His unique offer of **forgiveness**. ✝
- Many Hindus require **ongoing conversaton** in order to turn to Jesus, so your best tool may be an invitaton to our Discord community.
