Supporting Hindu Seekers

Preparing for Persecution

- It is **crucial** to inform Hindu seekers about the **potential challenges** they may face after conversion.
- Encourage them to **count the cost** of following Christ, including possible persecution.
- Equip them with **spiritual and emotional support** to navigate their new faith journey.
- Encourage them to be **"as wise as a serpant and harmless as a dove"** as they live out their growing Christian faith. Persecution may come; they do not need to live in such a way to invite it.
- Exhort new believers to do all they can to maintain their familial relationships when they become a Christian. They must obey Lord Jesus, but they do not have to do that in a way that invites unnecessary hardship from their family.

Educating About Challenges

- Provide **resources and information** about the realities of Christian persecution in India.
- Help seekers understand the **cultural context** and the **risks** involved in their decision to follow Jesus.
- Foster **open discussions** about their fears and concerns regarding persecution.
- Encourage seekers that there are **cultural components** of their identity in which they can participate without violating Christian faith.

Providing Ongoing Support

- Establish a **support network** for new believers to share their experiences and challenges.
- Offer **prayer, counseling,** and community resources to help them remain steadfast in their faith.
- Encourage them to connect with other Christians who can provide **guidance and encouragement**.
- Invite chatters to join **our Discord commmunity** where they can receive ongoing encouragement, support, and learning from our team.
